Priority	1 "mail not sent, contact admistrator" comes for everyone 1 Lospo change
	1 Logo change I Include Job offer and travel (inside stories) once we have debates
	1 include two lines and it are (include surines) since we have detailed.  1 update career page
	1. Update Caterer page 1. Update Caterer page 1. Info page: a sper mail
	I report/edit for enote
	I report your not entired.  I Video missing in answers for what ifs and also in other places like opinions
	1 Thumbrail must be big and proper when we share it in F8. also in whatsap
	1 When worst one of the state o
	1. When we copy min. In min some content is not appeared in the copy of the co
	1 Widoo size filmit and picture filmit pic remove says or the supervision (make same sale) size for updated in more deposition in the same and the same and the same as question but not in one.  1 Widoo size filmit and picture filmit pic remove says or sa
	1. Video Sze inimi, alia picture limiti pis remove asap 1. notification in inscube and in email
	I mountation in include and in email  Forcet paid not working
	1 remove pow test ununing
	I remove your restrictions to
	1 view more alignment in left side: web 1 FT videos posting: video is one an be small or else we can use the same + icon for upload as others
	1 PE 1 VIDEOS DOSINGS VIDEO CON CARLO DE STRAIN OF RESEAU TO LA TOPO TO
before Vednesday	1 Lingui anota ann ha shaqaqd an aliusa in unitan
evening	1 - + toon: emote can be changed as given in watsap.
Cvennig	1 FB share: try picture thumbnail
	1 when I write a post, all contents come in one para even if I write it second line. pls check the input text box
	1 my profile: every font can be reduced
	1 In all categories if we simply click post empty posts gets posted.
	1 Follow-unfollow in curiosity should be reversible
	1 Profile name/question instead of number (anyone can predict user count with numbers)
	1 scribble: reduce font size
	1 Mob: When i follow someone, it goes inside the profile, may be we can give the profile information along with the feed
	1 Write a story: alignment
	1 Mobile: In Feed, for all the posts, please include the options (questions/opinions/emote) in the feed itself, bottom after the post (now if we click the post, it goes to a separate page, instaed keep the design in feed itself. Only then user will come to knwo that there are options)
	1 remove posts (which has pictures: ashiq shibin and inspiration daily user posts)in scribble database
	1 com to .in
	1 emails
	1 pictures upload: size limit issue
	1 login validation error or resubmitted
	1 DOB: change max to 2004
	1 remove all email ids from contacts us except info id
	1 android app
	1 when i click a shared link, login appears. That is ok. After looging in it goes to feed instead of that post. We should have the post in the background and login window in the front layer (like first version)
	1 first page: remove text at the bottom
	1 Debate feature
	1 Mob: share, fb twt alignment there is an extra " "
	1 Mob: curiosities icons alignment What ifs, follow, etc
	1 mob: profile and trending area, when clicked, it should display the info at the centre (and when i click another icon, this window should automatically disappear)
	1 other browsers some issue
	1 talent, once we click a post, video doesnt appear
	1 https
	2 For curiosity, when the user clicks it, we can display the categories first. After he selects a category, then questions can be displayed
	2 Left side after "Following", we can include Curious about option. This will display all topics he selected for curiosities. Same as old version
	2 home icon change as shuffle icon. The functionality is mix of all posts according to time
before	2 Talents: Include Recommendations
friday	2 explainer (send pics for approval before publishing)
evening	2 Explainer: First when any user creates an account, Ask them in a pop up "Follow people", "Follow Topics" (for QnA and curisoity) After this start the explainer: So only if they follow someone they should see the posts else the feed should be empty
	2 message other users (not like chat initially). Message shall be sent only after accpetiong the message request
	2 Other language compatible text boxes
	2 In report, we can realign all icons properly
	2 internal share functionality
before	3 Communities (concept as per previous mail)
Sunday	3   Hashtag Pages (will be explained before friday)
